

Cumulative Fraction of the Population	Incremental Fraction of all Income Earned	Cumulative Fraction of All Income Earned	All tax returns
7.002%	0.260%	0.26%	No adjusted Gross Income, \$1 under \$5,000
15.046%	0.900%	1.16%	\$5,000 under \$10,000
23.430%	1.543%	2.71%	\$10,000 under \$15,000
31.161%	1.984%	4.69%	\$15,000 under \$20,000
38.026%	2.268%	6.96%	\$20,000 under \$25,000
44.043%	2.425%	9.38%	\$25,000 under \$30,000
54.003%	5.091%	14.48%	\$30,000 under \$40,000
61.831%	5.156%	19.63%	\$40,000 under \$50,000
75.063%	11.957%	31.59%	\$50,000 under \$75,000
83.813%	11.151%	42.74%	\$75,000 under \$100,000
95.754%	23.692%	66.43%	\$100,000 under \$200,000
99.150%	14.242%	80.67%	\$200,000 under \$500,000
99.720%	5.644%	86.32%	\$500,000 under \$1,000,000
99.843%	2.181%	88.50%	\$1,000,000 under \$1,500,000
99.896%	1.329%	89.83%	\$1,500,000 under \$2,000,000
99.970%	3.275%	93.10%	\$2,000,000 under \$5,000,000
99.989%	1.825%	94.93%	\$5,000,000 under \$10,000,000
100.000%	5.073%	100.00%	\$10,000,000 or more

Bonus Question (5 points): The table above draws on data from all 2015 tax returns in the United States.

- Using this data, graph the Lorenz curve for the United States.
- What percentage of all income does 15% of the U.S. population earn?
- What percentage of all income does 75% of the U.S. population earn?
- What percentage of all income does 95% of the U.S. population earn?
